

### Give your customers the power of knowledge with ... GUPTA's Report Builder

#### GUPTA REPORT BUILDER

*Are you looking for a simple way to turn data into business intelligence?*

Report Builder is an easy to use, dynamic reporting tool that enables on- demand report creation to improve your business IQ. Organizations are always searching for tools to transform data into valuable information to enable better decision-making. Report Builder affords organizations of any size the competitive advantage of working smarter and more effectively.

Within the walls of your organization, databases filled with valuable information exist, but likely require the tools to tap into that knowledge base. Imagine if, with a click of a button, you could request the data you want and view the information whenever you need it?

#### REPORT BUILDER FEATURES

- o Easy point-and-click database querying
- o Flexible formatting
- o Support for graphics and picture
- o Open database connectivity (SQLBase, Oracle, MySQL SQL Server, PostgreSQL)
- o Customized reporting
- o Over one hundred built-in functions to manipulate data
- o Standalone or corporate pricing available

#### Work Smarter

Today, most organizations face the challenge of getting more done with fewer resources. Report Builder enables employees to acquire information efficiently while improving their overall decision processes through intelligent insight.

#### Access Accurate Information, Quickly

Due to its ease of use, Report Builder enables everyone within the organization to become a knowledge worker. In other words, an employee can run a meaningful report, specific to his job function, and better yet, without the aid of his IT department!
